

# Comfort *By Design*

Every EPS home is custom designed so your new home becomes the one you've dreamed of: vaulted ceilings, multi-levels, lots of windows, open spaces—just make your list!

Plus, EPS homes are built with Structural Insulated Panels. SIPs are one of the most airtight and well insulated building systems available. You will enjoy a quiet home with reduced drafts and improved pest control.

An EPS SIP home will use less energy to heat and cool, and can reduce energy costs by as much as 50% when compared to conventional construction.

Call us today to discuss your wish list!
